

## TennCare AutoExempt & Attestation Drug List

**About this list:** The Auto-Exempt and Attestation List includes drugs and supplies that do not count toward an enrollee’s monthly drug limit of five prescriptions of which two can be brand name prescriptions. This list is subject to change. While both generic and brand names may be listed below, please refer to the Preferred Drug List (PDL) to determine each drug’s preferred/non-preferred status, PA requirements, and quantity limits.

To find the most current PDL and AutoExempt & Attestation Drug List, please visit the Optum Rx/TennCare website.  
<https://welcome.optumrx.com/tenncare/landing>

**Auto-Exempt List:** This is a list of the drugs and supplies that do not count against an enrollee's monthly drug limit.

**Attestation List:** This list of drugs and supplies that without access could have a high risk of causing adverse health consequences and hospitalization, institutionalization, or death within the next 90 days.

It is no longer necessary for prescribers to request attestation for these products.
