

Your 2024 Formulary

Effective Mar. 1, 2024

For the most current list of covered medications or if you have questions:

Call **1-866-288-5209**.

Visit **optumrx.com** to:

- Find a participating retail pharmacy by ZIP code.
- Look up possible lower-cost medication alternatives.
- Compare medication pricing and options.

Understanding your formulary

What is a formulary?

A formulary is a list of prescribed medications or other pharmacy care products, services or supplies chosen for their safety, cost, and effectiveness. Medications are listed by categories or classes and are placed into cost levels known as tiers. It includes both brand and generic prescription medications.

To create the list, Optum Rx® is guided by the Pharmacy and Therapeutics Committee. This group of doctors and pharmacists reviews which medications will be covered, how well the drugs work, and overall value. They also make sure there are safe and covered options.

How do I use my formulary?

You and your doctor can use the formulary to help you choose the most cost-effective prescription medications. This guide tells you if a medication is generic or brand, and if special rules apply. Bring this list with you when you see your doctor. If your medication is not listed here, please visit your plan's website or call the number on your member ID card.

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, set by your employer or plan sponsor. This is how much you will pay when you fill a prescription.

When does the formulary change?

- Medications may move to a lower tier at any time.
- Medications will be excluded from the formulary as soon as a generic equal becomes available.
- Medications may move to a higher tier or be excluded from coverage during the year. Affected members will be notified before any change takes effect.

When a medication changes tiers, you may have to pay a different amount for that medication.

Why are some medications excluded from coverage?

A medication may be excluded from coverage under your pharmacy benefit when it works the same as or similar to another prescription or over-the-counter (OTC) medication.

What if I don't agree with a decision about an excluded medication?

You, your authorized representative, or your doctor can ask for a coverage request by calling the number on your member ID card.

About this formulary

Where differences between this formulary and your benefit plan exist, the benefit plan documents rule. This may not be a complete list of medications that are covered by your plan. Please review your benefit plan for full details.

Medication tips

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent for a brand-name medication ends, the FDA can approve a generic version with the same active ingredients.

What if my doctor writes a brand-name prescription?

If your doctor gives you a prescription for a brand-name medication, ask if a generic or lower-cost option could be right for you. Generic medications are usually your lowest-cost option.

What if I am taking a specialty medication?

Specialty medications are for rare or complex conditions and are usually higher-cost medications. Please note, not all specialty medications are listed in the formulary. Our specialty pharmacy can provide most of your specialty medications along with helpful programs and services. Call **1-855-427-4682** and have your prescriptions delivered right to your home or doctor's office.

Over-the-counter medications (OTC)

An OTC medication may be the right treatment for some conditions. Talk to your doctor about OTC options. Even though OTC medications may not be covered by your pharmacy benefit, they may cost less than a prescription medication.

Important pharmacy benefit reminders

Insulin

You won't pay more than \$35 for a 1-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on.

Vaccines

Our plan covers most routine vaccines at no cost to you when you use network pharmacies. Call Member Services for more information.

Reading your formulary

The formulary gives you choices so you and your doctor can decide your best course of treatment. In this formulary, brand-name medications are shown in UPPERCASE (for example, CLOBEX). Generic medications are shown in lowercase (for example, clobetasol).

Tier information

What you pay before you reach the \$1,750 per member coinsurance maximum

| Covered prescription drugs | Retail network pharmacy | Retail network & home delivery pharmacy | Preferred specialty pharmacy | Non-preferred specialty pharmacy |
|--|--|---|---------------------------------------|---------------------------------------|
| | 31-day supply | 90-day supply | 30-day supply | 30-day supply |
| Tier 1 Generic traditional drugs | 20% coinsurance \$15 minimum/ \$45 maximum | 20% coinsurance \$37.50 minimum/ \$112.50 maximum | Not applicable | Not Applicable |
| Tier 2 Preferred brand traditional drugs | 20% coinsurance \$15 minimum/ \$45 maximum | 20% coinsurance \$37.50 minimum/ \$112.50 maximum | Not applicable | Not Applicable |
| Tier 3 Non-preferred traditional brand drugs | 40% coinsurance \$15 minimum/ no maximum* | 40% coinsurance \$37.50 minimum/ no maximum** | Not applicable | Not Applicable |
| Tier 4 Generic and preferred specialty drugs | Not applicable | Not applicable | 20% \$50 minimum/ \$100 maximum | \$40% \$50 minimum/ no maximum* |
| Tier 5 Non-preferred specialty drugs | Not applicable | Not applicable | \$40% \$50 minimum/ no maximum* | \$40% \$50 minimum/ no maximum* |

If a drug cost less than your maximum copay you pay the drug cost.

*Only 20% coinsurance up to a \$45 maximum is credited to the annual coinsurance maximum.

**Only 20% coinsurance up to a \$112.50 maximum is credited to the annual coinsurance maximum.

Annual coinsurance maximum for prescription drugs

The annual drug coinsurance maximum limits the amount each member pays for covered drug coinsurance and copays to **\$1,750 per member in 2024**. The following prescription drug costs are not counted toward your annual maximum:

- The costs you pay for getting prescription drugs from a non-network pharmacy.
- Costs beyond the 20% of the approved amount for using non-formulary or non-preferred drugs.

Drug list information

In this drug list, some medications are noted with letters next to them to help you see which ones may have coverage requirements or limits. Your benefit plan decides how these medications may be covered.
