

**MICHIGAN OFFICE OF  
RETIREMENT SERVICES**  
*Big Plans. Small Steps.*

# Michigan Public School Employees' Retirement System 2024 Prescription Benefit Overview

# Presentation Overview

Our goal is to help you understand:

- 2024 plan updates.
- Key terms and cost share.
- Maximizing the value of your plan.
- Helpful resources.

# 2024 Plan Updates

# 2024 Plan Updates for Medicare Members

- The 10% additional coinsurance will no longer apply when purchasing a 30-day supply at a retail pharmacy.
- Members will now have an opportunity to utilize divvyDOSE pharmacy.

# 2024 Plan Updates for Non-Medicare Members

- The 10% additional coinsurance will no longer apply when purchasing a 31-day supply at a retail pharmacy.
- 90-day supplies at a retail pharmacy are now covered.
- Specialty medication coverage is no longer exclusive to Optum Specialty.
- A specialty copay card solution is being implemented for coupon cards used for specialty medications.
- Members will now have an opportunity to utilize divvyDOSE pharmacy.

# Key Terms and Cost Share

# Key Terms

**Tier** - Determines medicine cost share. The lower the tier, the lower the cost share of the medicine you'll have to pay. The higher the tier, the higher the cost share of the medicine you'll have to pay.

**Cost share** - The share of costs of a covered drug that you pay out of your own pocket. This term generally includes coinsurance and copayments, or similar charges.

**Coinsurance** - The percentage of cost you pay for a covered medication based on tier placement. (For example, 20%).

**Annual coinsurance maximum** - The annual drug coinsurance maximum limits the amount you pay for covered drug coinsurance and copays.

**Formulary** - A list of prescription drugs covered by a prescription drug plan. Also called a drug list.

**Maintenance drug** - Prescribed medication that is taken over a long period of time for an ongoing or recurring condition.

**Specialty drug** - High-cost medications such as oral, injectable, or inhaled medications.

# Cost Share for Medicare Members

Type of drug	30-Day Fill at In-network Retail Pharmacy	90-Day Fill at Home Delivery or In-network Retail Pharmacy
Tier 1 - Generic	20%	20%
Tier 2 - Preferred Brand	\$15 Minimum / \$45 Maximum	\$37.50 Minimum / \$112.50 Maximum
Tier 3 - Non-Preferred Brand	40% \$15 Minimum / <u>No Maximum</u>	40% \$37.50 Minimum / <u>No Maximum</u>
Tier 4 - Preferred Specialty	20% \$50 Minimum / \$100 Maximum	Specialty Medications are limited to a 30-day supply
Tier 5 - Non-Preferred Specialty	40% \$50 Minimum / <u>No Maximum</u>	

# Cost Share for Non-Medicare Members

Type of drug	31-Day Fill at In-network Retail Pharmacy	90-Day Fill at Home Delivery or In-network Retail Pharmacy
Tier 1 - Generic	20%	20%
Tier 2 - Preferred Brand	\$15 Minimum / \$45 Maximum	\$37.50 Minimum / \$112.50 Maximum
Tier 3 - Non-Preferred Brand	40% \$15 Minimum / <u>No Maximum</u>	40% \$37.50 Minimum / <u>No Maximum</u>
Tier 4 - Preferred Specialty	20% \$50 Minimum / \$100 Maximum	Specialty Medications are limited to a 30-day supply
Tier 5 - Non-Preferred Specialty	40% \$50 Minimum / <u>No Maximum</u>	

# Understanding Cost Share

**If the drug price is less than the plan minimum, you pay the drug price.**

**For example, if the drug price is \$6.50 and the plan minimum is \$15, you pay the drug price of \$6.50.**

# Understanding Cost Share

When the drug price exceeds the plan minimum, you pay a percentage of the drug price up to the plan maximum.

**For example, if the price of a Tier 2 drug is more than \$15, you pay 20% of the drug price. But if 20% of the drug price exceeds \$45, you only pay \$45.**

There is no plan maximum for non-preferred drugs and specialty drugs purchased from a non-preferred pharmacy.

# Annual Coinsurance Maximum

The annual coinsurance maximum limits the amount you pay out of your pocket each calendar year for your prescription medications.

There is no change to your coinsurance maximum in 2024.

It remains at **\$1,750**.

# Generic and Preferred Brand Drugs

A large orange circle containing the text "Tier 1" in bold blue font.

**Tier 1**

A large orange circle containing the text "Tier 2" in bold blue font.

**Tier 2**

The full amount you pay for generic and preferred brand drugs is applied to the annual coinsurance maximum.

# Non-Preferred Drugs

A portion of what you pay is applied to the annual coinsurance maximum.

You pay 40% for Tier 3 non-preferred drugs, **but only the amount equivalent to the Tier 1 and 2 cost share is applied to the annual coinsurance maximum.**

# Preferred Specialty Drugs

## Tier 4

The full amount you pay for preferred specialty drugs purchased at an in-network specialty pharmacy is applied to the annual coinsurance maximum.

# Non-Preferred Specialty Drugs

A portion of what you pay is applied to the annual coinsurance maximum.

**You pay 40% for non-preferred specialty drugs, but only 20% up to the \$45 plan maximum is applied to the annual coinsurance maximum.**

# Example: 90-Day Generic or Preferred Brand

## Tiers 1 & 2

20%  
coinsurance

\$37.50 per drug minimum  
\$112.50 per drug  
maximum

Drug Price = \$1,000

$\$1,000 \times 20\% = \$200$

$\$200 > \$112.50$  maximum

**You Pay \$112.50**

**\*\$112.50 goes towards the annual coinsurance maximum.**

# Example: 90-Day Non-Preferred Brand

## Tier 3

40%  
coinsurance

\$37.50 per drug minimum  
No maximum

Drug Price = \$1,000

$\$1,000 \times 40\% = \$400$

**No maximum**

**You Pay \$400**

**\*\$112.50 goes towards the annual coinsurance maximum.**

# Example: 30-Day Preferred Specialty Drug

## Tier 4

20%  
coinsurance

\$50 per drug minimum  
\$100 per drug maximum

Purchased in-network

Drug Price = \$3,000

$\$3,000 \times 20\% = \$600$

$\$600 > \$100$  maximum

**You Pay \$100**

**\*\$100 goes toward the annual coinsurance maximum.**

# Example: 30-Day Non-Preferred Specialty Drug

## Tier 5

40%  
coinsurance

\$50 per drug minimum  
No maximum

Drug Price = \$3,000

$\$3,000 \times 40\% = \$1,200$

**No maximum**

**You Pay \$1,200**

**\*\$45 goes toward the annual coinsurance maximum.**

# Maximizing the Value of Your Plan

# Save the Most Money

## GO GENERIC

Generics are safe, effective, have the same active ingredients as brand-name medications, **while costing an average of 85% less.**

Ask your doctor or pharmacist,  
“Is there a **generic** that is right for me?”

# How to Save When a Generic is Not Available

## STAY PREFERRED

A preferred medication is often more clinically effective and costs less than a non-preferred medication.

If a generic medication is not available, choose a **preferred** brand.

# Quantity and Cost

A 30-day drug supply treats acute and specialty conditions.

A 90-day drug supply treats chronic conditions with maintenance medications you take on a regular basis.

Avoid waste and save money by purchasing a 90-day supply only after you know the drug works well for you.

# Retail Pharmacy Costs

Retail pharmacy drug prices can vary.

Some retail pharmacies have in-store programs that may offer additional savings.

You can find a nearby retail pharmacy by using the pharmacy locator tool at **optumrx.com** or on the mobile app. You may also call the phone number on your member ID card.

# Optum Home Delivery

Affordability

You may pay less for your medication with a three-month supply through Optum Home Delivery.

Easy and Simple  
Access

Get your medications without leaving the comfort and safety of your home. Standard shipping is free on medications delivered to your mailbox.

Patient  
Advocacy

Speak to a pharmacist who can answer your questions any time, any day. Even set up text and email reminders to help you remember to take or refill your medications.

# Optum Specialty

Optum Specialty does more than fill your prescription. Optum Specialty offers extra support to help you manage your care.

Members will receive lower costs when receiving preferred specialty drugs through Optum Specialty.

# divvyDOSE Pharmacy

Optum Rx and divvyDOSE have joined forces to help simplify managing your medications.

## Convenient

Stay on track with refills. divvyDOSE works with your doctor and insurance so you won't run out of what you need.

## Saves time

Get your divvyBOX delivered right to your door each month with free shipping. No more pharmacy trips.

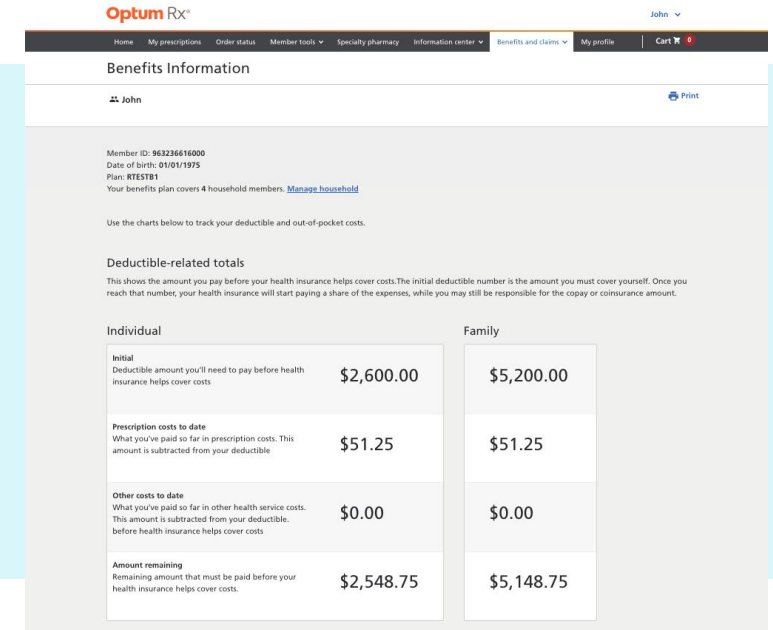

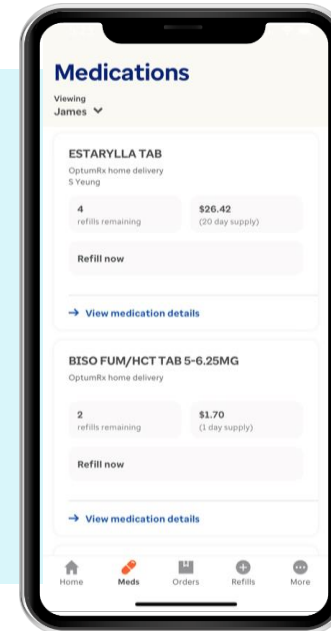

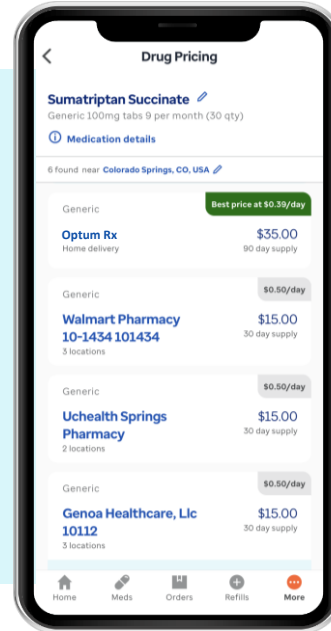

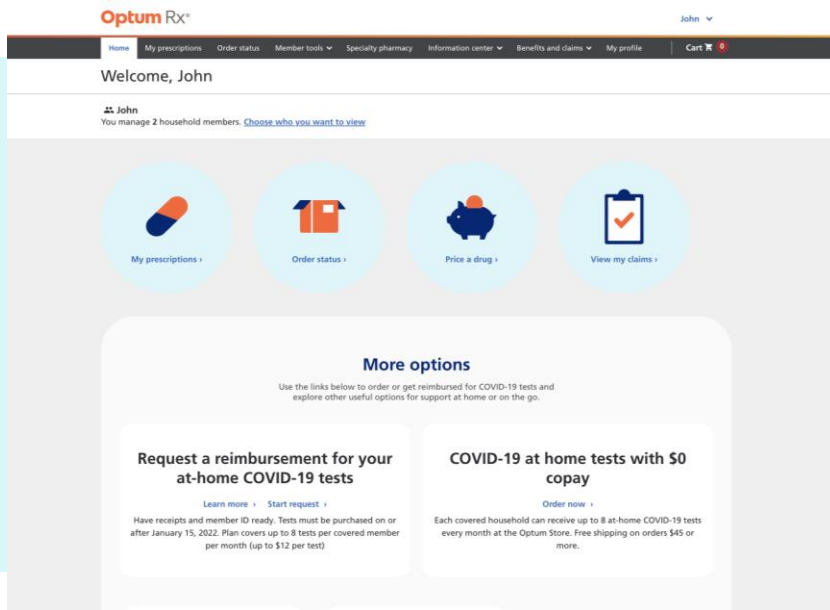

## Personalized

Enjoy pre-sorted pill packets for all your medications, vitamins and supplements. Your own custom box gets shipped to you.
