[Specialty prescriptions are limited to a 30-day supply and must be filled through Optum Specialty Pharmacy]

What pharmacy can I use?

The Optum Pharmacy Network is comprised of major chains, grocery store pharmacies, and many independent pharmacies throughout the United States. You can use the *Pharmacy locator* tool at <https://welcome.optumrx.com/compassrose/landing> to find pharmacies nearest you.

What medication does the prescription drug list include?

The prescription drug list includes commonly prescribed medications. You can use the drug list to see if a medication is covered by your health insurance plan. You can also find out if a

medication is available as a generic, needs prior authorization, has quantity limits and more.

Why could my coverage or cost change?

Your coverage or cost could change for a few reasons. Examples include:

- Medications moving to a different tier or are no longer covered.
- You may be required to get a prior authorization from your provider or try other medications first (step therapy).
- Medications may only be covered in certain quantities (quantity limits) or for a specified

time period.

- To estimate the price of a medication, go to <https://welcome.optumrx.com/compassrose/landing>.

How does Optum Home Delivery work?

Home delivery lets you order up to a 90-day supply of medications you take regularly. Medications received from the home delivery program must be an 84 to 90-day supply. You can submit your order online, through the app, by phone, or ask your doctor to send us an electronic prescription. Optum® Home Delivery fills your order, ships it to you, and lets you know when to expect delivery.

What is a prior authorization?

Prior authorization (PA) requires your doctor to tell us why you are taking a medication to determine if it will be covered under your pharmacy benefit. Some medications must be reviewed because they may:

- Only be approved or effective for safely treating specific conditions.
- Cost more than other medications used to treat the same or similar condition.

How can I find out if my medication requires a PA?

- Your pharmacist will tell you if a PA is required.
- You can call Optum Rx at 888-438-9135.
- You can also look online.

- Go to <https://welcome.optumrx.com/compassrose/landing>.
- Click on *Pricing and Coverage Tool*
- Enter the drug name and dose
- If the drug/dose you entered needs a prior authorization, you will see an alert below the drug name stating a PA is required.

What are specialty medications?

An injected, infused, oral or inhaled medication is defined as a specialty medication if it:

- May need ongoing clinical oversight and extra education.
- Has unique storage or shipping needs.
- May not be available at retail pharmacies.
- May need infusion or home nursing.

Who do I contact with questions about my specialty medication?

Pharmacists and patient care coordinators are available 24/7 to take care of everything, including:

- Transferring your prescription.
- Helping you find affordable ways to get your medication.
- Explaining how to use the specialty pharmacy
- Contact Optum Specialty at 888-438-9135
