Optum Rx will update the formulary with changes on a monthly basis. The notice shall include a description of the types of changes a health insurer may make to the formulary during the plan or policy year, and the dates on which such changes are effective. The notice may also include a description of any prior notification a health insurer will provide an affected insured of a formulary change. At a minimum, the types of changes described in the notice shall include the following: (A) Removal of a drug or dosage form of a drug from the formulary; (B) Any change in tier placement of a drug that results in an increase in cost sharing; and (C) Adding or changing utilization management procedures applicable to a drug.

The company does not discriminate on the basis of race, color, national origin, sex, age, or disability in health programs and activities.
