

2025 Value Rx list for managing chronic conditions

Managing your health with preventive medications

The HSA Plan and HSA Plus Plan include special coverage for preventive medications.

There is no copayment due for drugs on this list. That means you can get them at no cost to you.

A list of covered preventive medications begins on the next page

Medications are listed by therapeutic category. The list may change over time as drugs are sometimes removed from the market and new drugs (within the identified categories) become available. Not every dosage form prescribed will be covered. To confirm coverage, call us at **1-866-868-0139, TTY 711**, 9 a.m.–9 p.m. ET, Monday–Friday. Where differences are noted between this list and your benefit plan documents, the benefit plan documents will rule.

For questions on injectable preventive medications administered by your doctor or health care provider, reach out to your health insurance provider.

Many immunizations can be obtained on a walk-in basis by presenting the Optum Rx member ID card at the time of service. Members should review their benefit plan to determine coverage for immunizations.
