2027 List of Covered Drugs (Drug List or Formulary)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

Introduction

This document is called the *List of Covered Drugs* (also known as the *Drug List*). It tells you which drugs and other-the-counter (OTC) drugs and items are covered by Tufts Health One Care. The *Drug List* also tells you if there are any special rules or restrictions on any drugs covered by Tufts Health One Care. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

A. Disclaimers

This is a list of drugs that members can get in Tufts Health One Care.

- ❖ The Formulary, pharmacy network, and/or provider network may change at any time. You will receive notice when necessary.
- ❖ Tufts Health One Care is a Dual Special Needs Plan (D-SNP) that contracts with both Medicare and MassHealth (Medicaid) to provide benefits of both programs to enrollees. Enrollment in the plan depends on the plan's contract renewal with Medicare.
- ❖ Estate Recovery Awareness: MassHealth is required by federal law to recover money from the estates of certain MassHealth members who are age 55 years or older, and who are any age and are receiving long-term care in a nursing home or other medical institution. For more information about MassHealth estate recovery, please visit www.mass.gov/estaterecovery.
- ❖ Benefits may change on January 1 of each year
- ❖ You can always check Tufts Health One Care's up-to-date *List of Covered Drugs* online at TuftsHealthOneCare.org or by calling Member Services at the numbers in the footer of this document. This call is free.
- ❖ You can get this document for free in other formats, such as large print, braille, or audio. Call Member Services at the numbers in the footer of this document. This call is free.
- ❖ Call to request materials in languages other than English or in an alternate format at no cost. You can also make a standing request to have future mailings be in the alternate language or format. This way, you do not need to make a separate request each time. You can call Member Services to change your standing request for preferred language and/or format.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

- ❖ This document is available for free in Spanish. Other languages are available upon request.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs (Drug List)*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the *Drug List* for short.)

The drugs on the *Drug List* that starts in **Section C** are the drugs covered by Tufts Health One Care. The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- Tufts Health One Care will cover all medically necessary drugs on the *Drug List* if:
 - your doctor or other prescriber says you need them to get better or stay healthy,
 - Tufts Health One Care agrees that the drug is medically necessary for you, **and**
 - you fill the prescription at a Tufts Health One Care network pharmacy.
- In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.

You can also find an up-to-date list of drugs that we cover on our website at TuftsHealthOneCare.org or call Member Services at the number in the footer of this document.

B2. Does the *Drug List* ever change?

Yes, and Tufts Health One Care must follow Medicare and MassHealth (Medicaid) rules when making changes. We may add or remove drugs on the *Drug List* during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from Tufts Health One Care before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we'll cover another drug.)

For more information on these drug rules, refer to question B4.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

If you're taking a drug that was covered at the **beginning** of the year, we'll generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the *Drug List* now, **or**
- we learn that a drug isn't safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the *Drug List* changes.

- You can always check Tufts Health One Care's up-to-date *Drug List* online at TuftsHealthOneCare.org. Updates to the *Drug List* are posted on the website monthly.
- You can also call Member Services at the numbers in the footer of this document to check the current *Drug List*.

B3. What happens when there's a change to the *Drug List*?

Some changes to the *Drug List* will happen **immediately**. For example:

- **Substitutions of certain new versions of drugs.** We may immediately remove the drugs from the *Drug List* if we replace them with certain new versions of that drug, but your cost for the new drug will remain \$0. When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we'll send you information about the specific change we made once it happens.
 - We can make these changes only if the drug we're adding:
 - is a new generic version of a brand name drug, or
 - is a certain new biosimilar version of original biological products on the *Drug List* (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
 - Some of these drug types may be new to you. For more information, refer to **Section B14**.
 - You or your provider can ask for an exception from these changes. We'll send you a notice with the steps you can take to ask for an exception. Please refer to questions B10-B12 for more information on exceptions.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

- **Remove unsafe drugs and other drugs that are taken off the market.** Sometimes a drug may be found unsafe or taken off the market for another reason. If this happens, we may immediately take it off the *Drug List*. If you're taking the drug, we'll send you a notice after we make the change. Call your doctor or other prescriber to discuss alternative drugs and to request a new prescription.

We may make other changes that affect the drugs you take. We'll tell you in advance about these other changes to the *Drug List*. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- we remove a brand name drug from the *Drug List* when adding a generic drug that isn't new to the market, or
- we remove an original biological product when adding a biosimilar, or
- we change the coverage rules or limits for the brand name drug
- we add a generic drug and replace a brand name drug currently on the *Drug List*, or
- we add a new biosimilar to replace an original biological product currently on the *Drug List*, or
- we change the coverage rules or limits for the brand name drug.

When these changes happen, we'll:

- tell you at least 30 days before we make the change to the *Drug List* **or**
- let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- if there's a similar drug on the *Drug List* you can take instead **or**
- whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10-B12.

B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from Tufts Health One Care based on specific criteria before you fill your

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit [TuftsHealthOneCare.org](https://www.tuftshealthonecare.org).

prescription. Prior authorization is different from a referral. Tufts Health One Care may not cover the drug if you don't get prior authorization.

- **Quantity limits:** Sometimes Tufts Health One Care limits the amount of a drug you can get.
- **Step therapy:** Sometimes Tufts Health One Care requires you to do step therapy. This means you'll have to try drugs in a certain order for your medical condition. You might have to try one drug before we'll cover another drug. If your prescriber thinks the first drug doesn't work for you, then we'll cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables in **Section C**. You can also get more information by visiting our website at TuftsHealthOneCare.org. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there's a similar drug on the *Drug List* you can take instead or whether to ask for an exception. Refer to questions B10-B12 for more information about exceptions.

B5. How will I know if the drug I want has limits or if there are required actions to take to get the drug?

The table in the section titled, "List of Drugs by Medical Condition" has a column labeled "Necessary actions, restrictions, or limits on use."

B6. What happens if Tufts Health One Care changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?

In some cases, we'll tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the *Drug List* change.

B7. How can I find a drug on the *Drug List*?

There are two ways to find a drug:

- you can search alphabetically, **or**
- you can search by medical condition.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it in Section D. The Index of Covered Drugs is an alphabetical list of all of the drugs included in the

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

Drug List. Brand name drugs and generic drugs as well as over-the-counter (OTC) drugs are listed in the index.

To search by medical condition, find **Section D** labeled “List of Drugs by Medical Condition”. The drugs in this section are grouped into categories depending on the type of medical conditions they’re used to treat. For example, if you have a heart condition, you should look in Cardiovascular Drugs category. That’s where you’ll find drugs that treat heart conditions.

B8. What if the drug I want to take isn’t on the *Drug List*?

If you don’t find your drug on the *Drug List*, call Member Services at the numbers in the footer of this document and ask about it. If you learn that Tufts Health One Care won’t cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the *Drug List* that’s like the one you want to take. **Or**
- Ask Tufts Health One Care to make an exception to cover your drug. Refer to questions B10-B12 for more information about exceptions.

B9. What if I’m a new Tufts Health One Care member and can’t find my drug on the *Drug List* or have a problem getting my drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 108 days you’re a member of Tufts Health One Care. This will give you time to talk to your doctor or other prescriber. They can help you decide if there’s a similar drug on the *Drug List* you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we’ll allow multiple refills to provide up to a maximum of 30 days of medication.

We’ll cover a 30-day supply of your drug if:

- you’re taking a drug that isn’t on our *Drug List*, **or**
- our plan rules don’t let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by Tufts Health One Care, **or**
- you’re taking a drug that’s part of a step therapy restriction.

If you’re taking a covered drug that Tufts Health One Care doesn’t consider to be a Part D drug, you have the right to get a one-time, 72-hour supply of the drug. If the pharmacy isn’t able to bill Tufts Health One Care for this one-time supply, MassHealth (Medicaid) will pay for it.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

If you're in a nursing home or other long-term care facility and need a drug that isn't on the *Drug List* or if you can't easily get the drug you need, we can help. If you've been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We'll cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you're a new Tufts Health One Care member.
- This is in addition to the temporary supply during the first 90 days you're a member of Tufts Health One Care.

This one-time, temporary fill of the non-covered medication gives you time to discuss a transition plan with your physician. Your physician can also request an exception to coverage for the non-covered drug based on review for medical necessity following the standard exception process outlined previously.

As noted above, the temporary fill will generally be up to a 31-day supply, but it may be extended to allow you and your physician time to manage the complexities of multiple medications or when there are special circumstances. You can request a temporary prescription fill by calling the Tufts Health One Care Member Services department at 1-855-393-3154 (TTY: 711), seven days a week, from 8 a.m. to 8 p.m.

B10. Can I ask for an exception to cover my drug?

Yes. You can ask Tufts Health One Care to make an exception to cover a drug that isn't on the *Drug List*.

You can also ask us to change the rules on your drug.

- For example, Tufts Health One Care may limit the amount of a drug we'll cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

B11. How can I ask for an exception?

To ask for an exception, call *Member Services*. A Member Services representative will work with you and your prescriber to help you ask for an exception. You can also read **Chapter 9** of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

After we get a statement from your prescriber supporting your request for an exception, we'll give you a decision within 72 hours. To file a request, your provider or you may request an exception for coverage by mail, fax, by contacting Member Services, or by submitting a request via the Tufts Health One Care website.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

Mail: Tufts Health Plan
ATTN: Pharmacy Utilization Management Department
1 Wellness Way
Canton, MA 02021

Fax: 617-673-0956

Member Services: 1-855-393-3154 (TTY: 711), seven days a week, from 8 a.m. to 8 p.m. (Please note: Our hours shift to Monday through Friday, from April 1 through September 30).

Tufts Health One Care website: TuftsHealthOneCare.org

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we'll give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription—depending on state laws.

Tufts Health One Care covers both brand name drugs and generic drugs.

B14. What are original biological products and how are they related to biosimilars?

When we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to **Chapter 5** of the *Member Handbook*.

B15. What are OTC drugs?

OTC stands for "over-the-counter". Tufts Health One Care covers some OTC drugs when they're written as prescriptions by your provider.

You can read the Tufts Health One Care *Drug List* to find out what OTC drugs are covered.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

B16. Does Tufts Health One Care cover non-drug OTC products?

Tufts Health One Care covers some non-drug OTC products when they are written as prescriptions by your provider. Examples of non-drug OTC products include gauze pads and certain needles/syringes.

You can read the Tufts Health One Care *Drug List* to find out what non-drug OTC products are covered.

B17. Does Tufts Health One Care cover long-term supplies of prescriptions?

- **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 90-day supply of your drugs sent directly to your home and up to 100 day supply for preferred generic drugs. A 90-day supply has the same copay as a one-month supply.
- **90-Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 90-day supply of covered drugs and up to 100 day supply for preferred generic drugs. A 90-day supply has the same copay as a one-month supply.

B18. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

B19. What's my copay?

Tufts Health One Care members have no copays for prescription and OTC drugs as long as the member follows the plan's rules. Refer to questions B15 and B16 for more information about OTC drugs and non-drug products.

Tiers are groups of drugs on our *Drug List*.

- Tier 1 Generic drugs have \$0 copay.
- Tier 1 Brand name drugs have 0\$ copay.
- *OTCs have a \$0 copay.*

If you have questions, call Member Services at the numbers in the footer of this document.

C. Overview of the *List of Covered Drugs*

The *List of Covered Drugs* gives you information about the drugs covered by Tufts Health One Care. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins in **Section D**. The index alphabetically lists all drugs covered by Tufts Health One Care.

Note: The letter “EC” (Enhanced Coverage) next to a drug means the drug isn’t a “Part D drug.” These drugs have different rules for appeals.

- An appeal is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake.
- For example, we might decide that a drug that you want isn’t covered or is no longer covered by Medicare or MassHealth (Medicaid).
- If you or your prescriber disagrees with our decision, you can appeal. If you ever have a question, call Member Services at the numbers in the footer of this document.
- You can also read **Chapter 9** of the *Member Handbook* to learn how to appeal a decision.

C1. List of Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they’re used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular agents. That’s where you’ll find drugs that treat heart conditions.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

- | | | |
|--------|---|--|
| QL | = | Quantity limit: Limits the amount of a drug you can get. |
| NEDS | = | Non-extended day supply drug: In an effort to contain drug costs, certain high-cost drugs will be limited up to a 30-day supply per fill. Please note that eligible members have no copay for covered drugs. |
| PA | = | Prior authorization (approval): you must have approval from the plan before you can get this drug. |
| PA BvD | = | These drugs require prior authorization to determine appropriate coverage under Medicare Part B or Part D. |

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

- PA NSO = The Prior Authorization restriction only applies if you are a new member or have not taken this drug before.
- SP = Available through a designated specialty pharmacy provider. You have the option to obtain this drug through a designated specialty pharmacy provider. These pharmacies specialize in supplying a select number of medications directly to our members. They provide free delivery to your home, educational support 24/7 by phone, and the support of nurses and pharmacists. They also will work closely with your doctor. Medications include, but are not limited to, drugs used in the treatment of multiple sclerosis, hepatitis C, rheumatoid arthritis, and cancers treated with oral medications.
- ST = Step therapy: you must try another drug before you can get this one.
- ST NSO = Step therapy applies to new starts only: the step therapy prior authorization restriction only applies if you are a new member or have not taken this drug before.

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (for example, *omeprazole*), brand name drugs are capitalized (for example, ENBREL). The information in the “Necessary actions, restrictions, or limits on use” column tells you if Tufts Health One Care has any rules for covering your drug.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit TuftsHealthOneCare.org.

Cardiovascular Agents

Name of drug	What the drug will cost you (tier level)	Necessary actions, restrictions, or limits on use
<i>furosemide tablet 20mg</i>	\$0 (Tier-1)	
REPATHA INJECTION 140MG/ML	\$0 (Tier-1)	PA
<i>simvastatin tablet 10mg</i>	\$0 (Tier-1)	

D. Index of Covered Drugs

In this section, you can find a drug by searching for its name alphabetically. This will tell you the page number where you can find additional coverage information for your drug.

If you have questions, please call Tufts Health One Care at 1-855-393-3154 (TTY: 711), 8 a.m.–8 p.m., 7 days a week (Mon.–Fri. from Apr. 1–Sept. 30). The call is free. **For more information**, visit [TuftsHealthOneCare.org](https://www.tuftshealthonecare.org).

Drug Name	Drug Tier	Requirements/Limits
TRIKAFTA THERAPY PACK 100MG; 0; 50MG, 80MG; 0; 40MG	1	QL(56 EA per 28 days); PA; NEDS
Mast Cell Stabilizers		
<i>cromolyn sodium nebulization solution 20mg/2ml</i>	1	PA BvD
Phosphodiesterase Inhibitors, Airways Disease		
<i>elixophyllin elixir 80mg/15ml</i>	1	
<i>roflumilast tablet 250mcg, 500mcg</i>	1	
<i>theophylline er tablet extended release 12 hour 100mg, 200mg, 300mg, 450mg</i>	1	
<i>theophylline er tablet extended release 24 hour 400mg, 600mg</i>	1	
<i>theophylline elixir 80mg/15ml</i>	1	
Pulmonary Antihypertensives		
ADEMPAS TABLET 0.5MG, 1.5MG, 1MG, 2.5MG, 2MG	1	PA; NEDS; SP
<i>alyq tablet 20mg</i>	1	PA; SP
<i>ambrisentan tablet 10mg, 5mg</i>	1	QL(30 EA per 30 days); PA; NEDS; SP
<i>bosentan tablet 125mg, 62.5mg</i>	1	QL(60 EA per 30 days); PA; NEDS; SP
<i>macitentan tablet 10mg</i>	1	PA; NEDS
ORENITRAM TITRATION KIT MONTH 1 TABLET EXTENDED RELEASE THERAPY PACK 0	1	PA; NEDS; SP
ORENITRAM TITRATION KIT MONTH 2 TABLET EXTENDED RELEASE THERAPY PACK 0	1	PA; NEDS; SP
ORENITRAM TITRATION KIT MONTH 3 TABLET EXTENDED RELEASE THERAPY PACK 0	1	PA; NEDS; SP
ORENITRAM TABLET EXTENDED RELEASE 0.25MG, 1MG, 2.5MG, 5MG	1	PA; NEDS; SP
ORENITRAM TABLET EXTENDED RELEASE 0.125MG	1	PA; SP
<i>sildenafil citrate tablet 20mg</i>	1	PA; SP
<i>tadalafil tablet 20mg</i>	1	PA; SP
VENTAVIS SOLUTION 10MCG/ML, 20MCG/ML	1	PA; NEDS; SP
WINREVAIR INJECTION 0, 45MG, 60MG	1	QL(1 EA per 21 days); PA; NEDS
Pulmonary Fibrosis Agents		
<i>nintedanib esylate capsule 100mg, 150mg</i>	1	QL(60 EA per 30 days); PA; NEDS
OFEV CAPSULE 100MG, 150MG	1	QL(60 EA per 30 days); PA; NEDS; SP
<i>pirfenidone capsule 267mg</i>	1	QL(270 EA per 30 days); PA; NEDS; SP
<i>pirfenidone tablet 534mg</i>	1	QL(135 EA per 30 days); PA; NEDS; SP
<i>pirfenidone tablet 267mg</i>	1	QL(270 EA per 30 days); PA; NEDS; SP
<i>pirfenidone tablet 801mg</i>	1	QL(90 EA per 30 days); PA; NEDS; SP
Respiratory Tract Agents, Other		
<i>acetylcysteine solution 10%, 20%</i>	1	PA BvD
