Comprender su Lista de Medicamentos Preferidos

¿Qué es la Lista de Medicamentos Preferidos?

Una Lista de Medicamentos Preferidos es una lista de los medicamentos recetados y otros servicios, suministros o productos para el cuidado de la salud que se obtienen en una farmacia y que fueron elegidos porque son seguros, económicos y eficaces. Los medicamentos están clasificados por categorías o clases y están asignados a niveles de costo. Incluye medicamentos de venta con receta, tanto genéricos como de marca originales.

Para crear la lista, Optum Rx® se guía por el Comité de Farmacia y Terapéutica. Este grupo de médicos y farmacéuticos revisa los medicamentos que estarán cubiertos, la eficacia de los medicamentos y su valor general. También verifican que haya opciones seguras y cubiertas.

¿Cómo uso mi Lista de Medicamentos Preferidos?

Usted y su médico pueden usar la Lista de Medicamentos Preferidos para elegir los medicamentos de venta con receta más eficientes en costo. Esta guía indica si un medicamento es genérico o de marca, y si se aplican reglas especiales. Si su medicamento no se encuentra aquí, visite el sitio de Internet de su plan o llame al número de teléfono que se encuentra en su tarjeta de identificación de membresía.

¿Qué son los niveles?

Los niveles son las diferentes categorías de costos que usted paga por un medicamento. Cada nivel tiene asignado un costo, determinado por la empresa para la cual trabaja o por el patrocinador de su plan.

¿Cuándo cambia la Lista de Medicamentos Preferidos?

- Los medicamentos pueden pasar a un nivel inferior en cualquier momento.
- Los medicamentos pueden pasar a un nivel superior cuando comienzan a estar disponibles en una versión genérica equivalente.
- Los medicamentos pueden pasar a un nivel superior o ser excluidos de la cobertura, el 1 de enero o 1 de julio de cada año.

Si un medicamento cambia de nivel, originales una cantidad diferente por ese medicamento.

Acerca de esta Lista de Medicamentos Preferidos

En caso de que existan diferencias entre esta lista y su plan de beneficios, regirán los documentos del plan de beneficios. Esta no es una lista completa de sus medicamentos cubiertos. Revise los documentos de su plan de beneficios para ver los detalles completos. No todas las alternativas de la Lista de Medicamentos Preferidos que se encuentran en este documento podrían ser apropiadas para su condición específica. Hable con su prescriptor.

Consejos sobre los medicamentos

¿Cuál es la diferencia entre los medicamentos de marca registrada y los genéricos?

Los medicamentos genéricos contienen los mismos ingredientes activos (ofrecen el mismo efecto) que los medicamentos originales, pero suelen costar menos. En algunas situaciones, los medicamentos de marca registrada podrían tener un costo más bajo.

¿Qué hago si mi médico me receta un medicamento de marca registrada?

Si su prescriptor le da una receta para un medicamento original, pregúntele si hay una opción de menor costo que podría ser adecuada para usted.

¿Y si estoy tomando un medicamento especializado?

Los medicamentos especializados se usan para tratar condiciones complejas y generalmente son más costosos. Tenga en cuenta que no todos los medicamentos especializados aparecen en la Lista de Medicamentos Preferidos. Si desea utilizar Optum® Specialty Pharmacy puede obtener más información en **1-855-427-4682** y averigüe cómo puede hacer que le envíen sus medicamentos de venta con receta directamente a su hogar o al consultorio de su prescriptor.

Medicamentos sin receta

Hable con su prescriptor sobre las opciones de venta de medicamentos sin receta. Aunque los medicamentos sin receta tal vez no estén cubiertos por su beneficio farmacéutico, pueden costar menos que un medicamento con receta.

Cómo leer su Lisa de Medicamentos Preferidos

La Lista de Medicamentos Preferidos le ofrece alternativas para que usted y su prescriptor puedan decidir cuál es el mejor tratamiento para usted. En esta Lista de Medicamentos Preferidos, los medicamentos de marca registrada aparecen en MAYÚSCULA (por ejemplo, CLOBEX). Los medicamentos genéricos aparecen en minúscula (por ejemplo, clobetasol).

Información sobre el nivel

El uso de medicamentos preferidos o de un nivel inferior puede ayudarle a reducir sus costos de desembolso personal. Es posible que su plan tenga varios niveles o ninguno. Nota: Si tiene un plan con deducible alto, los niveles de costo se aplicarán una vez que alcance su deducible.

Nivel del medicamento	Incluye	Consejos útiles
Nivel 1	\$ Menor costo: Medicamentos genéricos y algunos de marca originales	Use los medicamentos del Nivel 1 para obtener los costos de desembolso personal más bajos.
Nivel 2	\$\$ Costo medio: Medicamentos de marca originales preferidos	Use medicamentos del Nivel 2, en lugar del Nivel 3, para reducir sus costos de desembolso personal.
Nivel 3	\$\$\$ Mayor costo: Medicamentos de marca originales y algunos medicamentos genéricos	Muchos medicamentos del Nivel 3 tienen opciones de menor costo en el Nivel 1 o 2. Pregúntele a su prescriptor si podrían ser adecuados para usted.

Información sobre la Lisa de Medicamentos Preferidos

En esta lista de medicamentos, algunos medicamentos están marcados con letras para que usted pueda identificar aquellos que tienen límites o requisitos de cobertura. Su plan de beneficios decide de qué manera estos medicamentos pueden estar cubiertos.

PA	Prior authorization (autorización previa): su prescriptor debe proporcionar a Optum Rx más información para determinar la cobertura.
QL	Quantity limit (límite de cantidad): los medicamentos pueden estar limitados a una cierta cantidad.
SP	Specialty medication (medicamentos especializados): medicamentos designados como especializados.
